INCLUSION NEWSLETTER

OCTOBER

Bowling Stars of SAIS

Our students proudly participated in the Bowling Championship, demonstrating teamwork, perseverance, and sportsmanship. The event allowed them to build confidence, strengthen friendships, and enjoy a meaningful inclusive experience. It was a joyful experience that truly celebrated their growth, effort, and achievements.

October highlighted purposeful inclusion at SAIS: on-campus assessments with Kids Heart, proud moments at the Bowling Championship, and confidence-building through our safety drill. Thank you to our students, families, and staff for partnering with us to support every learner's growth.

Ms. Marwa
Head of Inclusion

Open-House Assessment in Collaboration with Kids Heart Medical Center

The Kids Heart Medical Center team visited SAIS to conduct on-campus assessments for our students. This initiative provided families with the opportunity to have their children evaluated conveniently at school, ensuring early support and strong collaboration between the therapists, parents, and the Inclusion Department.

Emergency Evacuation Drill

As part of our safety and awareness program, our students actively participated in the school's fire drill. This activity helped them understand emergency procedures, practice following safety instructions, and build confidence in staying calm and focused during unexpected situations. We're proud of how responsibly our learners took part in ensuring everyone's safety.
