

October 7th, 2021

Dear SAIS Parent,

October is Breast Cancer Awareness Month; our school will conduct an awareness campaign to highlight the importance of breast cancer, education and research.

This year, SAIS-AUH aims for our school community to be fully involved in raising awareness on this very important topic. Throughout this month there have been a number of workshops, guest speakers, free screening programs (optional) and activities in order to educate and raise awareness amongst our students on this very important issue.

Sunday 10th is our “Dress in Pink Day”. Students and staff are invited to wear pink in support of this important cause. We need your support to take action against breast cancer and create a future where everyone who develops this disease can survive, through medical advancement, early screening and with the knowledge of how healthy lifestyle choices can be a preventative measure.

Sincerely,

SAIS management
